SUMMARY

Passionate **Software Developer** skilled in **Java**, **Data Structures & Algorithms**, and **Full-Stack Web Development** using React, Next.js, Node.js, and MongoDB. Solved 250+ DSA problems on LeetCode and built scalable full-stack projects with modern web technologies.

WORK EXPERIENCE

MERN Stack Intern – NPTEL & IIT Ropar

Dec 2025 – Jan 2026

- Completed an intensive MERN Stack internship focused on **MongoDB**, **Express.js**, **React.js**, **Node.js**, and **TypeScript** through the ViBe learning platform.
- Ranked among the **Top 15 participants** for completing the MERN stack course within the given timeline.
- Worked on practical case studies, collaborative problem-solving sessions, and a **12-hour virtual hackathon** to build real-world development and teamwork skills.
- Enhanced communication, leadership, and peer mentoring skills through technical discussions, evaluations, and collaborative learning activities.

PROJECTS

CourseStack – Learning Playlist Platform

[Live Link](#)

- Built a full-stack platform that enables users to create, organize, share, and monetize structured learning playlists using YouTube videos from multiple creators.
- Implemented authentication, playlist privacy controls, video organization, and responsive UI using **React**, **TypeScript**, **Tailwind CSS**, **Node.js**, **Express**, and **MongoDB**.
- Implemented **Google OAuth** authentication and **Razorpay payment integration** for secure user access and premium playlist purchases.

PersonaSite – No-Code Portfolio Builder

[Live Link](#)

- Developed a full-stack no-code portfolio builder that allows users to create and publish professional portfolio websites without writing code.
- Built reusable template systems, dynamic portfolio rendering, and responsive layouts using **Next.js**, **TypeScript**, **Tailwind CSS**, **Node.js**, and **MongoDB**.
- Implemented portfolio customization, live previews, responsive layouts for dynamic website generation.

SKILLS

Programming Languages: Java, JavaScript, TypeScript

Technologies / Tools: Next.js, React, Node.js, Express.js, MongoDB, Tailwind CSS, Git, REST APIs

Concepts: Data Structures & Algorithms, Object-Oriented Programming, Database Management, API Integration

EDUCATION

2023 - 2027	B.Tech, Oriental Institute of Science & Technology	(CGPA: 7.33)
2023	Class 12th, Shanti Niketan School , MP Board	(82%)
2021	Class 10th, Trinity Convent Sr. Sec. School , CBSE	(84%)

ACHIEVEMENTS

- Achieved top ranks in multiple **NPTEL** certifications, including **Top 1%** in **Programming in Java** (94%), **Top 2%** in **Database Management System** (80%), and **Top 5%** in **Data Structures and Algorithms using Java** (72%).
- Solved **250+** problems in **Data Structures and Algorithms** on **LeetCode**.
